

TABLE OF CONTENTS

Review articles	
Schiff bases of chitosan. An overview	5
<i>Anca Moanță, Marian Tutuc, Madalina Dragoi</i>	
Degradation of some azo dyes by Fenton process	13
<i>Madalina Dragoi</i>	
Research articles	
Data analysis regarding the behavior against different kinds of anaerobic germs of three first-row transition metal complex compounds	20
<i>Liana Simona Sbîrnă, Clementina Moldovan</i>	
Influence of heating on the activity of α-mannosidase	35
<i>Cătălina Ionescu, Georgeta Ciobanu</i>	
Natural versus synthetic pyrrhotite oxidation by dissolved oxygen	44
<i>Cristina E. Cârstea, Paul Chiriță</i>	
Effect of zinc ions and of EDTA on α-mannosidase activity	51
<i>Cătălina Ionescu, Georgeta Ciobanu</i>	
Effects of the short term exposure of wheat seedlings to silver nitrate	59
<i>Cătălina Ionescu, Georgeta Ciobanu</i>	
The study of the A, C and E vitamin effect on the electrooxidation processes of E155 food additive	49
<i>Bogdan Tutunaru, Amelia Bogatu</i>	
Cytostatic activity of some binuclear complexes with Schiff base derived from an aromatic dialdehyde and 2-aminobenzoic acid	86
<i>Florina Ciolan</i>
