

Table of contents

Some new integral inequalities for exponential type P -functions <i>Mahir Kadakal, İmdat İşcan, and Huriye Kadakal</i>	291
A study of triple sequences statistical convergence in neutrosophic normed spaces <i>Hari Shankar, Ayaz Ahmad, and Ayhan Esi</i>	303
Paired Hayman conjecture of some delay-differential polynomials that share a small function <i>Pulak Sahoo and Soniya Sultana</i>	315
Existence results for a class of perturbed impulsive Hamiltonian systems <i>Hamed Faghan Nomali, Ghasem A. Afrouzi, and Hadi Haghshenas</i>	332
Existence of solutions for a class of superlinear anisotropic Robin problems with variable exponent <i>Abdelrachid El Amrouss, Fouad Kissi, Ali El Mahraoui</i>	352
On lacunary \mathcal{I} -convergence of sequence in credibility space <i>Mousami Das, Ömer Kişi, Binod Chandra Tripathy, and Birojit Das</i>	367
Direct approximations of Szász-Beta-Schurer operators using Hermite polynomial <i>Anshul Srivastava, Avinash Kumar Yadav, Brijesh Kumar Sinha, Md. Heshamuddin, and Nadeem Rao</i>	382
Some harmonic and biharmonic problems on the tangent bundle with a Berger-type deformed Sasaki metric <i>Abdallah Medjadj, Hichem El hendi, and Lakehal Belarbi</i>	398
Hesitant fuzzy hyperideals of ordered semihypergroups <i>Muhammad Farooq, Muhammad Izhar, Asghar Khan, and Kostaq Hila</i>	416
Some new results on stability and input to state stability of fuzzy differential equations <i>Boulbaba Ghanmi and Ichrak Mnasri</i>	430

Bifurcation analysis of a class of polyharmonic semilinear equations with perturbed potential <i>Imed Abid and Sami Baraket</i>	449
Lower and upper bounds of integral mean estimate for polar derivative of a polynomial <i>Ranaranjan Thoudam, Nirmal Kumar Singha, and Barchand Chanam</i>	468
Novel Ostrowski type inequalities via exponentially (m_1, m_2) -convex functions and their applications <i>Saad Ihsan Butt, Bahtiyar Bayraktar, and Jamshed Nasir</i>	488
Descriptive analysis of new model of unbounded 3×3 operator matrix with application <i>Ines Marzouk and Ines Walha</i>	505
A new analytical solutions for systems of nonlinear time-fractional partial differential equations using the Khalouta-Daftardar-Jafari method <i>Nedjoudia Driai and Ali Khalouta</i>	526
Remarks on the Hilbert depth of powers of the maximal graded ideal <i>Silviu Bălănescu and Mircea Cimpoeaş</i>	540
On the properties of strongly h_d convex functions <i>Geanina Maria Lăchescu and Vasile Florin Uţă</i>	551
Local dynamics and bifurcation for a two-dimensional cubic Lotka-Volterra system (Part II) <i>Mihaela Sterpu and Raluca Efrem</i>	561
