

Table of contents

Laudatio for Professor Gheorghe Moroşanu at the Doctor Honor Causa of the University of Craiova award ceremony <i>Cristian Vladimirescu</i>	169
Do we need Mathematics? <i>Gheorghe Moroşanu</i>	173
New error estimation of Chebyshev functional and application to the onepoint and twopoint weighted integral formula <i>K.M. Awan, S. Kovač, and J. Pečarić</i>	179
Existence of renormalized solutions for a nonlinear elliptic equation in Musielak framework and L^1 data <i>Taghi Admedatt, Mohamed Saad Bouh Elemine Vall, Abdelmoujib Benkirane, and Abdelfattah Touzani</i>	190
Double left stabilizers in BL-algebras <i>Somayeh Motamed</i>	214
Obstinate and maximal prefilters in EQ-algebras <i>M. Behzadi and L. Torkzadeh</i>	228
Custom IDF weights for boosting the relevancy of retrieved documents in textual retrieval <i>Ioan Badarinza and Adrian Sterca</i>	238
Existence and multiplicity results for elliptic equations involving the p -Laplacian-like <i>Saeid Shokooh</i>	249
Non-trivial periodic solutions for a class of damped vibration problems <i>Abdollah Nazari, Ghasem A. Afrouzi, and Shapour Heidarkhani</i>	259
Some inequalities in inner product spaces related to Buzano's and Grüss' results <i>Silvestru Sever Dragomir</i>	267

Properties of integrable punctual convex functions	278
<i>Aurelia Florea</i>	
Notes on regular filters in residuated lattices	283
<i>Dana Piciu and Laura Dobre</i>	
Business intelligence: statistics in predicting stock market	292
<i>Smaranda Belciug and Adrian Sandita</i>	
An existence result for quasilinear elliptic equations with variable exponents	299
<i>Iulia Dorothea Stîrcu</i>	
Hausdorff topological BE-algebras	316
<i>E. Shahdadi and N. Kouhestani</i>
