

CONTENTS

Volume XV, Issue 1 / July 2016

Morphological Analysis of the fluvial terraces within the Topolog : aValley's Evolution System Approach Andreea ANDRA-TOPARCEANU, Mihaela VERGA, Mihai MAFTEIU	5
A complex approach in the interdisciplinary field of karst geomorphology. The case study of Anina karst area (Banat Mountains, Romania) Laurențiu ARTUGYAN, Petru URDEA	16
Exceptional floods in small basins in north-western Romania and the induced effects – Bârsău River, Maramureș County Gheorghe ȘERBAN, Sorin I. RÂNDAȘU-BEURAN, Ioan ROȘU, Simion NACU, Daniel SABĂU, Andrei NIȚOIA	25
Spatial and temporal dynamics of human pressure within the Preajba catchment area, Romania Oana MITITELU-IONUȘ, Marga-Elena AVRAM	34
Evaluation of land use/land cover classification accuracy using multi-resolution remote sensing images Varun Narayan MISHRA ^{1*} , Praveen Kumar RAI ² , Pradeep KUMAR ¹ , Rajendra PRASAD	45
Modelling of Ecosystem Indicators in G.I.S. Environment (A Case Study of the Sweet Chestnut Forest, Belasitsa Mountain, Bulgaria) Violeta DIMITROVA, Valentina NIKOLOVA, Ivan MYASHKOV	54
Floristic composition and functional zones pattern of the beach-dune system along the Danube Delta coast - Romania Daniela STRAT	65
Derivation of ecological indicators for assessing landscape health and habitat disturbance in Lower Barpani watershed of Assam (India) Ahmed RAIHAN, Sajjad HAROON	80
Demographic Development of Settlements in the South Banat County / District Dragica R. GATARIĆ, Ana VRBNIK, Marko IVANIŠEVIĆ	91
Evaluation of geoheritage models – analysis and its application on the loess profiles in Vojvodina region Višnić TAMARA, Began MILICA,	97
Geomorphosites with touristic value in the central – southern part of the Parâng Mountains Claudia Daniela ALBĂ	109
