

CONTENTS

<i>Wireless Transfer of Electric Power - a Disruptive Technology</i> – Andrei Marinescu	1
<i>Application of the Rotor Field-Oriented Control for an Induction Motor Used in Electric Traction</i> – Mihaela Popescu, Alexandru Bitoleanu, Constantin Vlad Suru	9
<i>Impact of Experimental Measurements Accuracy on Validation Process of Crimped Connections</i> – Alin-Iulian Dolan, Constantin-Florin Ocoleanu	16
<i>Real-Time Sensorless Control of the PMSM based on Genetic Algorithm, Sliding Mode Observer, and SCADA Integration</i> – Claudiu-Ionel Nicola, Marcel Nicola, Maria-Cristina Nițu, Dumitru Sacerdoțianu, Ancuța-Mihaela Aciu	24
<i>The Choice of the Main Power Components in Electric Traction Converters</i> – Lavinius Sorin Goreci, Mihaela Popescu, Ion Tilă	32
<i>Optimization of Electromagnetic Devices using a RSM Enhanced ACO_R Algorithm</i> – Anton Duca, Bianca Lamba	39
<i>Comparative Analysis of Two Methods of Calculating the Prescribed Current in a Shunt Active Filtering System</i> – Mihăiță Daniel Constantinescu, Mihaela Popescu, Constantin Vlad Suru	46
<i>Automatic Ventilation and Air Conditioning System for Educational Training</i> – Ionel Laurențiu Alboteanu, Andrei Cosmin Militaru	52
<i>Considerations on the Disturbances Occurred in the Operation of Medium Voltage Electrical Networks with Neutral Treated by Suppression Coil</i> – Silvia-Maria Digă, Nicolae Digă, Paul-Mihai Mircea, Ion Marin	60
<i>Experimental Study of HBC Fuses with Aluminium Fuse Element at Minimum Rated Breaking Current, Maximum Rated Breaking Current and Transfer Current of Fuse-Switch Combination</i> – Cristian-Eugeniu Sălceanu, Marcel Nicola, Daniel Ocoleanu, Daniela Iovan, Sorin Enache	67
<i>Simulation of Multi-Motor Propulsion System for Energy Efficiency in Electric Vehicles</i> – Cristian-Liviu Popescu, Laurețiu Marius Dumitran, Alexandru Stănescu	75
<i>Ways to Determine the Structural Resource of Highly Maneuverable Aircraft</i> – Nicolae-Alin Niculescu, Jenica-Ileana Corcău, Nicușor Cătălin Stancu	83
<i>Two Numerical Studies for Longitudinal Movement of a Canard UAV with Vectored Thrust</i> – Liviu Dincă, Jenica-Ileana Corcău, Dionis Cuman	90
