

Table of contents

Uniqueness of entire functions whose difference polynomials sharing a polynomial of certain degree with finite weight partitions	215
<i>Abhijit Banerjee and Sujoy Majumder</i>	
New concepts of irregular-intuitionistic fuzzy graphs with applications	226
<i>A. A. Talebi, M. Ghassemi, and H. Rashmanlou</i>	
A fixed point theorem of Sehgal-Guseman in $b_v(s)$ -metric spaces	244
<i>Zoran D. Mitrović, Lakshmi Kanta Dey, and Stojan Radenović</i>	
Existence and multiplicity of solutions for anisotropic elliptic equations with variable exponent	252
<i>Abdelrachid El Amrouss and Ali El Mahraoui</i>	
Existence and multiplicity of weak solutions for a Neumann boundary value problem with the Sturm-Liouville equation	267
<i>Mehrnoush Ranjkesh, Ghasem Alizadeh Afrouzi, and Somayeh Khademloo</i>	
Multiwavelets on local fields of positive characteristic	276
<i>Mohammad Younus Bhat</i>	
Superposition operators on some new type of order modular spaces	285
<i>E. Herawati and M. Mursaleen</i>	
Double-framed soft filters in lattice implication algebras	294
<i>R. A. Borzooei, Y. B. Jun, M. Mohseni Takallo, S. Khademan, M. Sabetkish, and A. Pourderakhshan</i>	
Nonholonomic frames for Finsler space with infinite series of (α, β) metric	308
<i>Brijesh Kumar Tripathi and V. K. Chaubey</i>	
Stochastic perturbation of Frank-Wolfe method for nonconvex programming problems	314
<i>Abdelkrim El Mouatasim and Abderrahmane Ettahiri</i>	

Commutative equality algebras and $\&$ -equality algebras	331
<i>M. Aaly Kologani, R. A. Borzooei, G. R. Rezaei, and Y. B. Jun</i>	
Invariant Submanifolds of (ϵ) -Sasakian Manifolds	346
<i>D. G. Prakasha, Aysel T. Vanli, M. Nagaraja, and P. Veerasha</i>	
Multiple solutions for a (p, q) -Laplacian Steklov problem	357
<i>A. Boukhsas, A. Zerouali, O. Chakrone, and B. Karim</i>	
New generalization of Hermite-Hadamard type inequalities via generalized fractional integrals	369
<i>Hüseyin Budak, Fatma Ertuğral, and Mehmet Zeki Sarikaya</i>	
Some notes on σ -algebraic soft sets	387
<i>Mustafa Burç Kandemir</i>	
Finite dimensional null-controllability of a fractional parabolic equation	397
<i>Constantin Niță and Laurențiu Emanuel Temereancă</i>
