

## Table of contents

On the topological generalized crossed modules <i>Mustafa Habil Gürsoy</i>	183
Signed double Roman domination numbers in digraphs <i>Jafar Amjadi and Fatemeh Pourhosseini</i>	194
A variational approach for nonlocal problems with variable exponent and nonhomogeneous Neumann conditions <i>Anderson L. A. De Araujo, Shapour Heidarkhani, Ghasem A. Afrouzi, and Shahin Moradi</i>	206
On some inequalities related to fractional Hermite-Hadamard type for differentiable convex functions <i>Hüseyin Budak, Hasan Kara, Muhammad Aamir Ali, and Mehmet Eyüp Kiriş</i>	222
Int-soft bi-hyperideals in ordered ternary semihypergroups <i>Aakif Fairooze Talee, Mohammad Yahya Abbasi, and Kostaq Hila</i>	234
Integral $K$ -operator frames for $\mathcal{B}(H)$ <i>Hatim Labrigui, Mohamed Rossafi, Abdeslam Touri, and Samir Kabbaj</i>	244
Exchange variations of generalized dual parallel curves and surfaces <i>Vahide Bulut</i>	258
Statistical Voronoi mean and applications to approximation theorems <i>Kamil Demirci, Sevda Yıldız, and Fadime Dirik</i>	283
Characterization of wavelets associated with $AB$ -MRA on $L^2(\mathbb{R}^n)$ <i>Owais Ahmad, M. Younus Bhat, and Neyaz A. Sheikh</i>	293
Rotationally symmetrical plane graphs and their Fault-tolerant metric dimension <i>Sunny Kumar Sharma and Vijay Kumar Bhat</i>	307
New integral inequalities of Hermite-Hadamard type in a generalized context	

*Juan Gabriel Galeano Delgado, Juan Eduardo Nápoles Valdés, and Edgardo Pérez Reyess* 319

Comments on the paper "A. Zada, B. Dayyan, Stability analysis for a class of implicit fractional differential equations with instantaneous impulses and Riemann–Liouville boundary conditions, *Ann. Univ. Craiova, Math. Comput. Sci. Ser.*, **47** (2020), 88–110"

*Snezhana Hristova and Akbar Zada* 328

Analysis of fractional Fokker-Planck equation with Caputo and Caputo-Fabrizio derivatives

*Suleyman Cetinkaya, Ali Demir, and Dumitru Baleanu* 334

Characterizations of some fractional-order operators in complex domains and their extensive implications to certain analytic functions

*Hüseyin Irmak* 349

New approaches to processing GIS Data using Artificial Neural Networks models

*Dana Mihai* 358

New Data Mining approach for clustering Export Credit Agencies (ECAs) based on performance criteria: a bibliometric citation analysis for the period 2005 to 2020

*Seyed Arash Shahr Aeini, Seyfollah Tabrizi, Cristi Spulbar, Ramona Birau, and Amir Karbassi Yazdi* 374
