Astfel, colecția Motricitate Umană își propune să pună la dispoziția publicului interesat o serie de titluri de carte privind activitățile motrice de performanță, studii privind rolul activității fizice în îmbunătățirea calității vieții, aplicarea exercitiului fizic în scop profilactic și terapeutic prin programe kinetice în diverse patologii, bazele anatomicice, biomecanice și evaluarea funcțională a exercitiului fizic.

Colectia reunește o diversitate de publicații, incluzând cărți de interes general și publicații științifice de înaltă ținută – studii, prezentarea unor proiecte de cercetare, teze de doctorat, antologii, atlase, etc.

Membrii comitetului științific pot trimite propunerile de publicare și altor specialiști din domeniu.
